National Cattle Mobility Event

The third National Cattle Mobility Event

Getting to grips with cattle lameness

Reaseheath College in Nantwich on Thursday, 8th April 2010

This now popular annual event is a must for anyone looking to control the age old problem of bovine lameness on-farm. The latest research and advice on how to reduce lameness will presented by industry experts.

The morning session will include two keynote presentations:

- **Cattle lameness and the 'FirstStep®' programme** - Professor Nigel Cook, University of Wisconsin.
- **How genetics affects mobility and locomotion** - Dr Mike Coffey, leader of SAC's Animal Breeding Group.

Following lunch, there will be a number of practical sessions and demonstrations, including:

- **Foot trimming and disease identification**
- **Environmental factors affecting lameness**
- **Mobility versus locomotion - what's the difference?**
- **Parlour improvements and foot bathing**

Delegates will also have the opportunity to look around the College's world famous Genus MOET herd, and visit trade stands to gather information on the latest products, equipment and services.

The event opens at 9.00am, with the first presentation at 10.30am, and will finish at approximately 3.30pm. Each delegate will receive a comprehensive delegate pack. Refreshments on arrival and a hot buffet lunch will be provided. Tickets are priced at just £20, and places can be booked by completing the tear-off slip below.

Yes, I would like to attend. Please book me _____ places for the 2010 NCME at £20 per person.
 I enclose a cheque for £_____ made payable to the **National Cattle Mobility Event**
